ADD/ADHD requirements

Dear Parents,

We have listed some very important information that must be sent or brought to our office prior to scheduling an ADD/ADHD consultation.

INFORMATION NEEDED:

- Hearing and vision screen results.
- A narrative report from your child's teacher(s). A list of items for the teacher(s) to assess is attached. **No check lists, please.** (If choosing Dr. Blazek or Dr. Lemmen)
- Vanderbilt forms filled out by your child's teacher(s) **AND** each parent. (If choosing Dr. Wiederhold, Ann Sheehan DNP, or Dr. Ohmart)
- Any other previous ADD/ADHD evaluations.
- Make sure paperwork is addressed to the specific doctor you would like to see.

Once we have all the required paperwork, the doctor will review them and let the staff know if an appointment is Ok'd to be scheduled or if further testing is needed. The more information we have, the better.

It is very important that at least one parent attends the first consultation.

If you have any question, please feel free to call our office at 269-327-1900.

Sincerely,

Pediatrics, P.C.
